Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

- 6) ☐ Other: ____.

DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-14 rejected under 35 U.S.C. 102(b) as being anticipated by Sumino (JP 10-172147: machine translation relied upon).

Regarding claim 1:

Sumino discloses:

An optical disc playback apparatus which has an optical pickup receiving reflected light from an optical disc, comprising:

a signal level detector that detects a level of a signal obtained from said reflected light (abstract: solution); and

a determining circuit that based on said level determines which side said optical pickup is located on, an information recording area or an information non-recorded area of said optical disc (abstract).

Regarding claim 2:

In Sumino when said level of said signal obtained from said reflected light is less than a predetermined reference value, said determining circuit determines that said optical pickup is located on said information non-recorded area side (paragraphs 22, 24).

Regarding claims 3 and 4:

In Sumino when said optical pickup is located on said information non-recorded area side, said optical pickup is made to move (paragraphs 27-30).

Regarding claims 5 and 6:

The apparatus of Sumino further comprises:

an optical pickup position detector that detects whether said optical pickup is located on an inner circumference side of said optical disc (paragraph 28),

wherein based on a detecting result of said optical pickup position detector, said optical pickup is made to move (paragraphs 28-30).

Regarding claims 7-12:

In Sumino said signal obtained from said reflected light is an RF signal, and said level is a peak-to-peak difference value of the RF signal (abstract).

Regarding claims 13/1-12:

In Sumino said determining circuit determines the position of said optical pickup based on the level of said signal obtained from said reflected light during a predetermined time period (this is inherent: it samples and holds the signal, so the sample time must be predetermined).

Regarding claim 14:

This is a method claim corresponding to apparatus claim 1, and is met when the apparatus operates.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher R. Lamb whose telephone number is (572) 272-5264. The examiner can normally be reached on 8:30 AM to 6:00 PM Monday to Friday.
